Professional Summary

Full-Stack Engineer working with Python/Django and React/Next.js. Builds REST APIs, relational data models, authentication, permissions, and connected frontend workflows. Experience includes automotive, e-commerce, inventory, and learning applications, with deployment support and production debugging.

Technical Skills

Backend: Python, Django, Django REST Framework (DRF), REST APIs, Django ORM, authentication, authorization

Frontend: JavaScript, TypeScript, React, Next.js, Redux, Tailwind CSS, HTML, CSS

Data: PostgreSQL, MySQL, SQLite, Prisma, Redis, relational modelling, migrations, query optimization

Testing and delivery: Playwright, Git, GitHub Actions, Docker, Linux, Nginx, Gunicorn

Professional Experience

Full-Stack Developer | Swagly

March 2025-Present | Full-time

- Build Django/DRF services and REST APIs consumed by web and mobile applications.
- Implement authentication, permissions, validation, third-party integrations, and relational data models.
- Build React/Next.js product features, integrate backend APIs, and optimize database queries.

Full-Stack Developer | First Filter

June 2024-May 2025 | Freelance

- Built automotive catalogue workflows using Django/DRF, PostgreSQL/MySQL, React, Next.js, and React Native.
- Designed models and APIs for filters, vehicles, manufacturers, and categories; implemented permissions, uploads, and administrative workflows.
- Integrated web/mobile clients with APIs and supported deployment and production debugging.

Full-Stack Developer | Mega Digital Agency

January 2024-June 2024 | Full-time

- Delivered responsive websites and JavaScript application features; integrated third-party APIs into client-facing workflows.

Frontend Developer | Valinteca

October 2022-February 2023 | Remote contract

- Built reusable e-commerce interfaces using React, Redux, JavaScript, HTML, and CSS; contributed to frontend optimization.

Selected Projects

TijaraOS | Inventory and Sales Management SaaS

Django, DRF, PostgreSQL, Redis, Next.js, TypeScript, Docker, GitHub Actions

- Built inventory and sales foundations with relational models, APIs, permissions, protected routes, form validation, and frontend-backend integration.
- Configured PostgreSQL/Redis services, Docker Compose, and frontend/backend CI workflows.

CSUnivers | EdTech Platform

Next.js, React, TypeScript, Prisma, MySQL

- Built Arabic/English course, quiz, enrolment, and progress-tracking workflows with student, instructor, and administrator roles.

Teaching Experience

Full Stack Engineer - Teaching and Mentoring | AMIT Learning | June 2024-December 2024

- Taught and mentored learners in Python/Django, React, SQL, frontend/backend development, and programming fundamentals.

Education and Languages

Bachelor's Degree in Arabic Language, Al-Azhar University - Expected 2027

Arabic: Native | English: Intermediate
